

## LED FLOOD LIGHTS

Energy efficient replacements for conventional floodlights

Rotech have an LED flood light to suit any application, with a single colour or up to 512 RGB colour combinations adjustable at each floodlight. They can also be programmed for intermittent flashing and chasing all from each individual light.

All flood lights have an IP 67 waterproof and dustproof enclosure, stainless steel fittings and 5 mm toughened glass.

With such low power consumption coupled with the low maintenance requirements these flood lights are really amazing.

### Applications:

- \* Hotels
- \* Commercial Buildings
- \* Sport Stadiums
- \* Clubs
- \* Signage
- \* Hospitals
- \* Car Parks
- \* Shopping Centres
