

## LK + GF Logic Controllers

For 3 phase and single phase operators.

**LK for EB, KB, EV1 Operators (Part # 89122)**  
**GF for all other Operators (Part # 89123)**

### Standard Features

- \* 24v DC Auxiliary supply protected by a self-resetting fuse.
- \* Facilities for radio receivers, loop detectors, safety edge and PE beams
- \* Fully adjustable auto close from 2 seconds to 4 minutes.
- \* Key switch isolates push buttons.
- \* Diagnostic LED's to assist fault finding.
- \* Stop and reverse safety feature.
- \* Impulse open/close or dead man open/close.
- \* Integral test buttons.

LD100 Loop Detector  
**Part #302**

The LK & GF logic controllers are suitable for use with 3 phase and single phase operators.  
They have facilities for loop detectors, PE beams, radio transmitters, timers and counters.  
Controllers can also be manufactured to customers specifications.

ST 1 Button Transmitter  
**Part #100**

PC50 Reflective PE beam  
**Part #8901**

15 PE Beams  
**Part #200**

Pneumatic Safety Edge  
3m **Part # 89454**  
4m **Part # 89455**  
5m **Part # 89456**

**Rotech Automation**

**Rotech LED Lighting**

**Rotech Fire + Safety**

Rotech supply all forms of door + gate automation equipment. Call or email us for more information.
