
SENTINEL LD SERIES

Automatic Boom Gates

The Sentinel LD Series boom gate is a high quality European made boom gate that offers many features at an affordable price

This electromechanical boom gate has a rectangular aluminium arm available in lengths from 2m to 4m.

The cabinet has an easy to use external manual unlock device and is electroplated and painted with high UV resistant materials.

The opening speed, closing power and soft stop / start are fully adjustable from the control panel.

The control panel has provision for battery back, safety loops, PE beams and radio control.

Up to 10 pairs of FTM PE beams can be mounted on the same column without causing any interference.

Easy to use external unlock device

Options

- * Safety Edge
- * Flashing Lights
- * Traffic Lights
- * Cabinet Mounted PE beams
- * Operation from Solar Panel.
